

CAREER OBJECTIVE

Computer Science enthusiast and Electronics & Communication Engineering undergraduate with practical exposure to embedded systems, circuit design, Data science Machine Learning and applied problem-solving through hackathons and innovation challenges.

Strong problem-solving, teamwork, and communication skills, with a passion for software development and contributing to innovative technology-driven organizations.

EDUCATION

Government Engineering College Vaishali (BEU)

Bachelor of Technology in Electronics & Communication Engineering; CGPA: 7.5/10

Bihar, India

2023 – 2027

Y.B.K. Inter College, Minapur, Muzaffarpur

Intermediate (BSEB); Percentage: 72.8%

India

2022

S R B High School Koergawabalakothi, East Champaran

Matriculation (BSEB); Percentage: 56.8%

India

2020

TECHNICAL SKILLS

Programming Languages: C++, Python, c

Frontend: HTML5, CSS3, Responsive Web Design

Backend: Flask

Databases: MySQL, MongoDB

Developer Tools: Git, GitHub, VS Code

Core Subjects: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Artificial Intelligence, Machine Learning, Data science, Embedded Systems, Internet of Things (IoT)

PROJECT

Bank Management System | Python, JSON, Streamlit, FastAPI

- Built a class-based bank management system in Python with JSON file persistence for account CRUD operations.
- Integrated a Streamlit frontend to make the system interactive and easier to use.
- Added multi-module logging via a `get_logger` factory, with per-module log files and duplicate-handler guards.

Face Recognition Attendance System | Python, OpenCV

- Developed an AI-based attendance system using real-time facial recognition.
- Automated attendance recording, improving accuracy over manual methods.
- Reduced manual attendance management effort through end-to-end automation.

IoT Smart Home Automation System | NodeMCU, Embedded Systems, IoT

- Built an IoT-based smart home automation system using NodeMCU.
- Enabled remote appliance control for improved convenience and energy management.
- Integrated sensors to drive intelligent, condition-based automation.

Personal Portfolio Website | HTML, CSS, JavaScript

- Designed and developed a fully responsive personal portfolio website.
- Showcased projects, certifications, and technical skills in a structured layout.

INTERNSHIP & TRAINING

Embedded Systems Intern

RCPL

- Worked on embedded systems and IoT-based automation projects.
- Gained practical experience in hardware interfacing and embedded programming.

Data Science Essentials with Python

Cisco Networking Academy

- Completed a structured training program covering the fundamentals of data science using Python.

Programming in Python with AI

Internshala

- Trained in Python programming with an applied focus on artificial intelligence concepts.

CERTIFICATION

Data Science Essentials with Python – Cisco Networking Academy

Embedded Systems

Programming in Python with AI – Internshala

Soft Skill – Nptel

ACHIEVEMENTS

Developed academic projects spanning Artificial Intelligence, Machine Learning, and Data Structure.

Acquired practical knowledge of databases, and modern web technologies.

Enhanced teamwork, communication, and leadership skills through professional training programs.

LANGUAGE

- Hindi, English
